Roadmap for improvement in Semester 2

by Selvi Wensor

I have been contacting parents this week to find out about their child's Maths performance in their mid-year report. From the many conversations I have had, the following are some of the things that we can do to ensure a successful Semester 2:

- If you send me your child's mid-year report, I am happy to read it, make a plan for improvement based on it and communicate that with you and your child so we can carry it out in the next semester.
- I can review the released exams, SACs and CATs to find areas of weakness and make a roadmap to improve in those areas.
- If you can find out the topics that will be covered in term 3 and communicate them with me, I can plan and set some tasks so that your child is ready for that topic.
- If your child can find out when assessments are due, they can have a list of these due dates at their desk and tick them off when completed.
- Your child can go over their summary sheets with me prior to tests and SACs to ensure they have the right information. These summary sheets can even be used for exams.

Referral Bonus

Receive a \$10 credit on your next invoice for every referral you make that leads to at least 1 booked lesson.
