Keeping Maths alive during the holidays

by Selvi Wensor

<https://www.scholastic.com/parents/school-success/learning-toolkit-blog/5-ways-to-keep-kids-learning-math-through-holidays.html>

As we approach the long summer holiday period, parents of younger students will be wondering how their younger children will remember and retain the number skills that they learnt though out the year. It is very likely that they will tend to forget or become less fluid with the skills they acquired as they don't have to practice these skills over the break. The link to this blog will explore various fun activities and creative experiences that parents can provide to their children to ensure that they continue to use their maths skills over the holiday period.
